

Lobo Parking

Date: February 5th, 2026

To: All Lobo Parking Members

From: Grace Tomallo, Lead officer

Subject: Proposal for Uber X Subscription included in UNM tuition.

The purpose of this memo is to address the parking shortage we have here at UNM as well as discuss the contents of a meeting to discuss possible solutions to this problem.

Many students struggle on a daily basis to find available parking spaces, often arriving late or even missing class due to our overcrowded lots. This problem is not only frustrating but affects students' academic performance as well. Despite permit costs, parking availability doesn't keep up with the number of students who have cars on campus.

One potential solution our club would like to explore is partnering with Uber X or ride share services included with the cost of tuition. This program would reduce the number of cars on campus to have less congestion and give students a reliable transportation.

There will be a meeting held on Friday the 6th at 4:00pm at Dane Smith Hall to discuss the issues and solutions further.

If you have any questions before the meeting feel free to contact me at Gtomallo@unm.edu
