Manager, Transportation Services

University of New Mexico

Albuquerque, NM 87131

Dear Manager of Transportation Services,

The purpose of this letter is to formally address the ongoing parking shortage at the University of New Mexico and to present a potential solution on behalf of the Lobo Parking student organization.

Many students experience daily difficulty locating available parking spaces on campus, particularly during peak class hours. As a result, students often arrive late to class or miss class entirely after spending excessive time searching for parking. This issue has become a consistent source of frustration and negatively impacts students' academic performance. Despite the cost of parking permits, the availability of parking spaces has not kept pace with the growing number of students who commute to campus by car.

In addition to academic concerns, the parking shortage contributes to increased traffic congestion and unnecessary stress for students. Vehicles frequently circle parking lots for extended periods, adding to congestion and creating safety concerns for both drivers and pedestrians. Students with limited time between classes, work obligations, or accessibility needs are especially affected by these conditions.

Lobo Parking respectfully proposes that the University consider partnering with UberX or a similar rideshare service and incorporating the cost into student tuition or offering it as an optional transportation program. Providing students with access to reliable rideshare transportation could reduce the number of vehicles on campus, ease traffic congestion, and offer a practical alternative for students who struggle to find parking. This solution could serve as a valuable supplement to existing transportation services.

Thank you for your time and consideration of this concern. If you have any questions or would like to discuss this proposal further, please feel free to contact me at [\[gtomallo@unm.edu\]\(mailto:gtomallo@unm.edu\)](mailto:gtomallo@unm.edu).

Sincerely,

Grace Tomallo

Lead Officer, Lobo Parking
